Redmine - Feature #2595

Issue report for all projects

2009-01-27 00:05 - Brad Beattie

Status:	New		**Start date:**	2009-01-27
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	UI		**Estimated time:**	0.00 hour
Target version:	Candidate for next major release			
Resolution:				

Description

Currently, we can view /reports/issue_report/PROJECTNAME, but /reports/issue_report results in a 404. Everything on this page is applicable to all projects, save for Version and Category, which likely doesn't carry between projects. These could, for this page, be replaced by Project, yeah?

- File issues_reports.png added

- File 2595-without-tests.patch added

I think that it would be very useful if I could see the issue summary page of all redmine projects.
So, I propose a patch that aroows you to access issues/reports without :project_id.

As below screenshots, You select projects -> issues -> summary to access the issue summary page for all projects.

#2 - 2019-02-13 09:49 - Go MAEDA

- Target version set to Candidate for next major release

#3 - 2020-03-08 12:30 - Go MAEDA

- Has duplicate Feature #2415: Global issue_report without project specific information added
