#### Description

I noticed a difference between the rendering of the query filter forms on the issues & spent time views and the query filter forms on the calendar and gantt views. I fixed it with the following changes:

- 1. Fix HTML structure of form#query\_form on calendar/gantt views.**  
 This unifies the HTML structure of the query form on the calendars/show and gantts/show views to be the same as it is currently for the issues and spent time views, which were themselves unified into the new queries/\_query\_form partial in [r15649](#).
- 2. Fix source indentation and newline usage.**  
 This unifies the source layout of the query form on the calendars/show and the gantts/show views with the queries/\_query\_form partial.
- 3. Unify form#query\_form structure on calendar/gantt views.**  
 This:
  - moves the p with inline style on the calendar view (which wraps the navigation buttons) out of div#query\_form\_content and adds the contextual class to the element to unify this with the gantt view (and to remove the inline style from the element now that it's styled through a stylesheets' style [.contextual in fact]);
  - restores the 12px font-size of the calendar navigation buttons;
  - increases the font-size of the gantt zoom buttons to 12px;
  - increases the margin of the calendar navigation and gantt zoom buttons to 12px 0px.
- 4. Add test assertions to the four controller test cases.**

To make the changes a bit more visual, here some ASCII and image graphics:

#### Revision 16703 - 2017-06-25 17:16 - Jean-Philippe Lang

Unify query\_form structure on calendar/gantt views (#26125).

This:

- moves the p with inline style on the calendar view (which wraps the navigation buttons) out of div#query\_form\_content and adds the contextual class to the element to unify this with the gantt view (and to remove the inline style from the element now that it's styled through a stylesheets' style [.contextual in fact]);
- restores the 12px font-size of the calendar navigation buttons;
- increases the font-size of the gantt zoom buttons to 12px;
- increases the margin of the calendar navigation and gantt zoom buttons to 12px 0px.

Edit: seems like using thumbnails in tables causes some issues; replaced with regular image tags.

Edit 2: for anyone searching for the visual differences: only the calendar and gantt views are affected by these changes

Also attaching the patches.

#### #2 - 2017-06-19 04:55 - Go MAEDA

- Target version set to 4.1.0

Looks good to me. Passed all test.

Since we are freezing 3.4.0 now and this issue is a kind of refactoring, I think it would be better to set target version to 3.5.0 instead of 3.4.0.

#### #3 - 2017-06-25 17:17 - Jean-Philippe Lang

- Status changed from New to Closed
- Assignee set to Jean-Philippe Lang

Patches are committed, thanks!

#### #4 - 2017-07-08 18:37 - Jean-Philippe Lang

- Target version changed from 4.1.0 to 4.0.0

#### #5 - 2018-04-22 10:13 - Marius BĂLTEANU
