

Redmine - Feature #26334

Update Redmine gems to latest stable versions

2017-07-04 00:06 - Future Link Corporation pkgsrc team

Target version:			
Resolution:			
Description			
<p>Some of the gems required by Redmine are ancient. For example, these are the highest versions available given the gem matching pattern versus the latest version of the package available:</p> <ul style="list-style-type: none">• request_store 1.0.5 (1.3.2);• roadie-rails 1.1.1 (1.2.1);• nokogiri 1.7.2 (1.8.0);• i18n 0.7.0 (0.8.4);• ffi 1.9.14 (1.9.18);• net-ldap 0.12.1 (0.16.0);• ruby-openid 2.3.0 (2.7.0);• pg 0.18.4 (0.21.0);• tiny_tds 1.0.5 (1.3.0);• rdoc 4.3.0 (5.1.0);• simplecov 0.9.2 (0.14.1);• test_after_commit 0.4.2 (1.1.0);• selenium-webdriver 2.53.4 (3.4.3); <p>Updating these would make Redmine easier to maintain in various package systems. As it stands, we'd have to package these old versions of gems just to have Redmine in the package system. That's not ideal, as it requires double the maintenance for those gems, tracking security vulnerabilities in old versions too, etc.</p>			

History

#1 - 2017-07-04 03:43 - Go MAEDA

- Category set to Gems support

#2 - 2017-07-04 03:45 - Go MAEDA

- Related to Feature #25538: Drop support for Ruby 2.2.1 and earlier, 2.2.2+ is now required added

#3 - 2017-07-04 05:41 - Toshi MARUYAMA

- Related to deleted (Feature #25538: Drop support for Ruby 2.2.1 and earlier, 2.2.2+ is now required)

#4 - 2017-07-04 05:45 - Toshi MARUYAMA

- Status changed from New to Closed

Reasons of pinning gem version are compatibility for old Ruby and breaking tests.

[source:trunk/test](#)

Please create new issue for each gems if you have solution to fix their brokenness.

#5 - 2017-07-04 15:07 - Future Link Corporation pkgsrc team

What is the point of ensuring compatibility with any Ruby version before 2.3? Upstream isn't supporting those versions any more. It's just more work for you guys plus marries this software to museum copies of Ruby packages.
