<b>Description</b>			
Darcs support of Redmine is broken with Darcs $\geq$ 2.5 ( <a href="#">#13472#note-1</a> ). Darcs 2.5 was released in 2010. It is very old version, so it can be said that virtually Redmine does not support Darcs.			
I think we can drop Darcs support because we have never seen complaints about broken Darcs support in recent years, probably no one uses this feature.
