Resolution: Invalid	

Description

Hello,

I've installed Redmine 3.4.2 on Ruby2.2.6 and Rails 4.2.
I can start the Redmine on <http://localhost:3000>, if i logged me on i get this Error in the production.log

```
Started POST "/login" for 127.0.0.1 at 2017-08-08 13:09:57 +0200
Processing by AccountController#login as HTML
  Parameters: {"utf8"=>"", "authenticity_token"=>"rGhz6l23Kc2JvgWxksKdRpBlmxeeCQJuchdr3RAVABuBybq
JI4mFOgXtKS0p2DbWYFzlrQ2w8R7AQ0pxJKOldA==", "back_url"=>"http://localhost:3000/account/register",
"username"=>"rene.kolbe", "password"=>"[FILTERED]", "login"=>"Anmelden"}
  Current user: anonymous
Successful authentication for 'Rene.Kolbe' from 127.0.0.1 at 2017-08-08 11:09:57 UTC
Completed 500 Internal Server Error in 62ms (ActiveRecord: 31.2ms)

ActiveRecord::StatementInvalid (TinyTds::Error: Invalid column name 'updated_on'.: EXEC sp_execute
sql N'SELECT [tokens].[id] FROM [tokens] WHERE [tokens].[user_id] = @0 AND [tokens].[action] = @1
ORDER BY [tokens].[updated_on] DESC OFFSET 9 ROWS', N'@0 int, @1 nvarchar(30)', @0 = 1080, @1 = N
'session'):
```

```
app/models/token.rb:135:in `delete_previous_tokens'
app/models/user.rb:416:in `generate_session_token'
app/controllers/application_controller.rb:82:in `start_user_session'
app/controllers/application_controller.rb:162:in `logged_user='
app/controllers/account_controller.rb:273:in `successful_authentication'
app/controllers/account_controller.rb:219:in `password_authentication'
app/controllers/account_controller.rb:205:in `authenticate_user'
app/controllers/account_controller.rb:38:in `login'
lib/redmine/sudo_mode.rb:63:in `sudo_mode'
```

We use the Database from an Redmine 2.6 installation on SQL Server 2012. i had installed Redmine 3.0.4 before and the log on was successfully.

Anybody has an idea?

Pls help me as soon as possible - for Information: I'm not an Ruby Developer...

Best Regards

History

#1 - 2017-08-08 13:36 - Rene Kolbe

I've seen that the Column "update_on" is not available in the table "tokens" on the old Database.
Can i add this Column without the original system on Redmine 2.6 crashed?

#2 - 2017-08-08 20:37 - Toshi MARUYAMA

- Status changed from New to Closed
- Priority changed from High to Normal
- Resolution set to Invalid

You need to run "bundle exec rake db:migrate".

[source:tags/3.4.2/db/migrate/20151024082034_add_tokens_updated_on.rb](https://source.tags/3.4.2/db/migrate/20151024082034_add_tokens_updated_on.rb)
