Description

Would you please consider the feature of extending the issue's visibility for the role to this issue's watchers?
This is a moderate choice for administrator between the none-private and assign & author.
Maybe there's influence for current role's authorization. You guys please think about it. Thank you so much.

- Status changed from New to Closed

- Resolution set to Duplicate

I am closing this issue as a duplicate of [#8488](#) and [#23546](#).

Jean-Phiilppe Lang said that he does not want to implement this feature because it is confusing for users if a watcher is used for such purpose.
Please see [#7412#note-13](#).

Anyway thank you for posting an issue.
