

Redmine - Feature #27035

Workflow Standard fields

2017-09-19 13:07 - Martina A.

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues workflow	Estimated time:	0.00 hour
Target version:			
Resolution:	Invalid		
Description			
Dear all,			
as an administrator I can set permissions in the workflow section for each standard field separately (read only, mandatory...)			
Can I also add or delete a standard field?			
I would like change the settings for the field "comment".			
Thanks

If your "comment" means "notes", you can use "Add notes" role.

Thanks, but I'm not sure, if I understand your tip.

I like to change a section in the workflow part. Here you can define for each standard field, if this is mandatory or not during the ticket workflow. There are standard fields predefined like project, tracker etc.

I would like to add or delete those standard field. Is this possible?

The background for this question is, that I like to permit that one can add a comment to an already closed ticket. I already have found a patch for this problem, but unfortunately this does not work.
