**Description**

The migration/update page [RedmineUpgrade](RedmineUpgrade) talks only about moving from 1.x to 2.x.

Current Redmine version is 3.4.2.

It would be great to have a documentation page on how to migrate/update from 2.x to 3.x...

**History**

**#1 - 2017-10-15 17:48 - Go MAEDA**

*- Category set to Documentation*

**#2 - 2017-10-15 20:04 - Toshi MARUYAMA**

*- Description updated*

**#3 - 2017-10-15 20:05 - Toshi MARUYAMA**

*- Subject changed from Upgrading from 2.x to 3.x to Documentation of upgrading from 2.x to 3.x*

**#4 - 2021-03-19 10:35 - C S**

I think this documentation is done and issue can be closed. The actual Wiki describes from 2.x to higher

**#5 - 2021-03-19 12:02 - Bernhard Rohloff**

*- Status changed from New to Closed*

Thank you for pointing it out. I am closing it for now.
