Resolution:	Duplicate		**Affected version:**	3.4.2

Description
We're using a bit complicated project structure (ie 5-level tree) with versions defined on each levels and shared in a different ways. Anyway, now when I'm in parent project (not the topmost but very high in structure) I'm unable to choose Target versions in filter URL is: https://ourredmineinstance.xyz/projects/project-name/time_entries/report I tried it in a different projects but select box is always empty.
