Redmine - Defect #27229

public_suffix requires Ruby version >= 2.0

2017-10-19 14:34 - Pavel Potcheptsov

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Gems support		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Fixed		**Affected version:**	3.4.3

Description

There is table which states that ruby 1.9.3 is compatible with redmine 3.4.
However 3.4.3 has in Gemfile:

```
gem "public_suffix", "~> 2.0.5" if RUBY_VERSION < "2.1"
```

But

```
gem install public_suffix -v '2.0.5'
ERROR:  Error installing public_suffix:
        public_suffix requires Ruby version >= 2.0.
```

So 3.4.3 is no longer works with Ruby 1.9.3 or is it possible to use older version of this gem with support of Ruby 1.9.3?
