

Redmine - Patch #2724

Display attachment names in email notifications

2009-02-12 01:20 - Brad Beattie

Status:	Closed	Start date:	2009-02-12
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Email notifications	Estimated time:	0.00 hour
Target version:			
Description			
If a ticket is created with an attachment, no such information is displayed in the email notification. The patch below adds such a line to email.

History

#1 - 2009-02-12 04:12 - Eric Davis

- Subject changed from Display attachments in email notifications to Display attachment names in email notifications

- Status changed from New to 7
- Assignee set to Eric Davis

Good suggestion. I see a few improvements I'd make

1. Add test cases
2. For the HTML version it would be nice to link to the filename so a user can just click the link to download the attachment
3. Instead of a comma separated list, maybe separate each attachment with a line break or a li
4. Add the attachment description if it's available

I'll see about integrating this.

(FYI: if you upload the patch with the extension .diff or .patch, we can download it and apply it directly. Plus we get some nice syntax highlighting for the code)
