

Redmine - Defect #27243

Permission problem with share versions

2017-10-21 14:07 - Amir Sepahram

Status:	Needs feedback	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Permissions and roles	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:			
Description			
<p>Hi,</p> <p>I've added a version in a project and shared it with project tree. Then I assigned some issues to it in both projects.</p> <p>It's supposed to work all right, though when I click on any of the issue links on Roadmap page, I get this error:</p> <p>"403 - You are not authorized to access this page."</p> <p>I am both Manager role holder - with permission to "manage version" - and redmine admin. Still I get the error, so that I have to go to issue list and use filters.</p>
