Redmine - Defect #2733

Priority CSS Class in issue description is fault-prone

2009-02-12 17:36 - Leonard Brünings

Status:	Closed		**Start date:**	2009-02-12
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:	0.8.1			
Resolution:	Fixed		**Affected version:**	

Description

The priority CSS class in issue description can be wrong if
your priority contains spaces.

Priority: Keep in Mind
=> CSS classes: priority priority-Keep in Mind

As you can see the spaces are not masqueraded.
I suggest either use the same approach as in the issue list by
just enumerating the priorities eg. priority-1 or masquerading
the spaces with underscores or dashes.

Associated revisions

Revision 2461 - 2009-02-13 18:29 - Jean-Philippe Lang

Removes invalid css class on issue details (#2733).

History

#1 - 2009-02-12 22:28 - Jean-Philippe Lang

    just enumerating the priorities eg. priority-1

That is the expected behaviour.
Can you give the exact view or URL where a CSS class based on priority **name** appears?

#2 - 2009-02-12 23:55 - Leonard Brünings

Jup, just look at the sourcecode of this page.

```
<td class="priority"><b>Priority:</b></td><td class="priority priority-Normal">Normal</td>
```

#3 - 2009-02-13 18:30 - Jean-Philippe Lang

- Status changed from New to Closed

- Target version set to 0.8.1

- Resolution set to Fixed

Oh, you're right. This is removed in r2461.
The css class that you're expecting (eg. priority-5) was set on the div that wraps the issue details.
