Change Bulgarian translation for label\_news\_new (#27926).

Patch by Ivan Cenov.

#### History

##### #1 - 2018-01-10 02:40 - Go MAEDA

- File 27926-bg-label\_news\_new.diff added
- Target version set to 4.0.0

I made a patch file from Ivan Cenov's bg.yml file.

According to Google translation, it changes label\_news\_new from "Добави" (Add) to "Нова новина" (New news). "Нова" is used in various label\*\_new labels and "новина" is the current translation for "News".

LGTM. Setting target version to 4.0.0.

##### #2 - 2018-01-10 02:42 - Go MAEDA

- Subject changed from Bulgarian translation to Change Bulgarian translation for "Add news" (label\_news\_new)

##### #3 - 2018-01-10 13:16 - Go MAEDA

- Subject changed from Change Bulgarian translation for "Add news" (label\_news\_new) to Change Bulgarian translation for label\_news\_new
- Status changed from New to Closed
- Assignee set to Go MAEDA

Committed. Thank you for your contribution.
