

## Redmine - Defect #28034

### Can assign closed/locked versions to custom field

2018-01-22 10:54 - Robert Schneider

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Custom fields	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.4.2
<b>Resolution:</b>			
<b>Description</b>			
<p>Detected in version 3.4.2.</p> <p>If I create a ticket with a tracker that has a custom field of type version (trying to realize "Affected version") I can assign all versions, regardless of their state. Now, I've got the same problem as it is described in #8572.</p> <p>Project is a subproject. It has a list of versions that are not shared. The parent has also non-shared versions, which are correctly not listed.</p> <p>As it seems the same problem exists on redmine.org in the defect tracker as well.</p>
