<b>Target version:</b>	4.0.0		
<b>Description</b>			
<p>This originates from <a href="#">#28119#note-2</a>.</p> <ol style="list-style-type: none"><li>1. We might want to add a simple test (like <a href="#">ApplicationHelperTest#test_footnotes</a>, but than in <a href="#">source:trunk/test/unit/lib/redmine/wiki_formatting/markdown_formatter_test.rb</a>) for markdown footnotes as enabled per <a href="#">#16072</a>.</li><li>2. And while looking at the above, the question of 'how many other textile syntax tests are there remaining, lurking outside of <a href="#">source:trunk/test/unit/lib/redmine/wiki_formatting/textile_formatter_test.rb</a> and what do we want to do with them?' came up...<ul style="list-style-type: none"><li>◦ The answer to the first part would be 'several' (among them e.g. <a href="#">ApplicationHelperTest#test_footnotes</a>). My answer to the second part of the question would be 'move them to the dedicated <a href="#">TextileFormatterTest</a> class'.</li></ul></li></ol> <p>I'll leave two patches against <a href="#">source:trunk@17198</a>:</p> <ul style="list-style-type: none"><li>• <i>0001-Add-footnotes-test-for-markdown-formatter-16072.patch</i><ul style="list-style-type: none"><li>◦ This patch adds a footnotes test for the markdown formatter (<a href="#">MarkdownFormatterTest#test_footnotes</a>).</li></ul></li><li>• <i>0002-Move-textile-footnotes-test-to-TextileFormatterTest.patch</i><ul style="list-style-type: none"><li>◦ This patch moves <a href="#">ApplicationHelperTest#test_footnotes</a> to become <a href="#">TextileFormatterTest#test_footnotes</a>.</li></ul></li></ul> <p>In case there is consensus on my answer to the question raised under point 2, I'll open a dedicated container issue for it.</p> <p>Note: I won't target this issue to any version, as I don't think this is of any use for the changelogs.</p>
