

Redmine - Defect #2826

trac import breaks images

2009-02-24 17:03 - Daniel Svensson

Status:	New	Start date:	2009-02-24
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Importers	Estimated time:	0.00 hour
Target version:		Affected version:	0.8.1
Resolution:			
Description			
[[Image(myimage.png)]] and similar should be converted to !myimage.png!			

History

#1 - 2009-02-26 06:41 - Daniel Svensson

The following regexp, should be placed first in the convert_wiki_text block:

```
text = text.gsub(/\[\[Image\(\([a-zA-Z]+\:(\d+\.:)?(?:^\^,]+)^\)\]\]/, '!3!')
```

The following test cases:

```
puts convert_wiki_text("[[Image(myimage1.png)]]")
puts convert_wiki_text("[[Image(wiki:myimage2.png)]]")
puts convert_wiki_text("[[Image(ticket:1:myimage3.png)]]")
puts convert_wiki_text("[[Image(myimage4.png, 120px)]]")
puts convert_wiki_text("[[Image(myimage5.png, align=right)]]")
```

Will then output:

```
!myimage1.png!
!myimage2.png!
!myimage3.png!
!myimage4.png!
!myimage5.png!
```

I think the only supported extended Image attribute supported by Redmine is align=right, which could have been converted to:

```
!>myimage5.png!
```

...but it's probably pretty rare, and would make the already complex regexp almost unreadable.

#2 - 2013-02-06 10:24 - Daniel Felix

Any news on this?

Is anyone able to reproduce this with the current trunk?
