

Redmine - Defect #2830

trac lists aren't imported as such

2009-02-24 18:17 - Daniel Svensson

Status:	New	Start date:	2009-02-24
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Importers	Estimated time:	0.00 hour
Target version:		Affected version:	0.8.1
Resolution:			
Description			
1. a 1. a 1. a 1. a 1. a			
Should be converted to:			
# a ## a ## a # a # a			

History

#1 - 2009-02-25 17:18 - Mathias Kühn

Check Patch [#2748](#) for an updated version of the importer which fixes that issue beside others.

#2 - 2009-02-26 07:04 - Daniel Svensson

Ah cool.. here's my solution, it's a bit more strict but does essentially the same thing.

Add following to convert_wiki_text:

```
# alpha/numeric lists
text = text.gsub(/(^[ ]+)(\d+|[a-zA-Z])\.[ ]/) { |s| '#' * $1.length + ' ' }
# bullet lists
text = text.gsub(/(^[ ]+)\*[ ]/) { |s| '*' * $1.length + ' ' }
```

Test cases:

```
puts convert_wiki_text(" 1. test")
puts convert_wiki_text(" 1. test")
puts convert_wiki_text(" * test")
puts convert_wiki_text(" * test")
puts convert_wiki_text(" a. test")
puts convert_wiki_text(" a. test")
```

Output:

```
# test
## test
* test
** test
# test
## test
```

#3 - 2013-02-06 10:24 - Daniel Felix

Any news on this?

Is anyone able to reproduce this with the current trunk?
