Description	
<p>Hello,</p> <p>I saw that: https://www.redmine.org/projects/redmine/repository/revisions/16108/diff/trunk/app/models/issue.rb</p> <p>But actually, it could be great to be able to close a parent task.</p> <p>Is it possible to allow this in the "configuration" of Redmine? For example:</p> <p> <i>"Allow a parent tracker to be closed even if the sub-task aren't: YES/NO".</i></p> <p>Thanks</p>
