

Redmine - Defect #28576

Attachments are added even if validation fails when updating an issue via email

2018-04-17 15:32 - Doruk Fişek

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Email receiving	Estimated time:	0.00 hour
Target version:	3.3.9	Affected version:	
Resolution:	Fixed		
Description			
Setting: There's an issue that a required field's empty.			
When I try to update the issue via e-mail (but not add value to the required field), Redmine rejects the e-mail update (as it should).			
However if the e-mail has an attachment, it adds the attachment to the issue nevertheless.			
What it should do is to reject the attachment also.
