Redmine - Defect #28578

Redmine JAVA API: Journal is missing User Data

2018-04-17 17:52 - Shailesh Pathak

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:	REST API	**Estimated time:**	0.00 hour
Target version:			
Resolution:	Invalid	**Affected version:**	3.0.0

Description

tried to read an issue along with Journal with following code

        issue = issueManager.getIssueById(issueId, Include.journals);

It gets me all the Journal data as expected but missing User Info (null) who made that change.
While debugging figured out there is some issue while parsing the data in API classes.
Please check.

On browser with API URL, I get all the data along with User data.

History

#1 - 2018-04-30 04:38 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Invalid
