| **Description** |
|---|
| I can not find a setting for configure the first day in the week. This seems to be picked out from locales, but I would like the week to start on monday (which is normal in europe) but still use the english language. There should be a setting for this just as there are settings for hour format and date format. |

AFAICT there indeed isn't a setting in the UI for this (yet).

I'm in the same position on that. Using Redmine r2167 (== 0.8.0) this could be changed through the locales indeed. Therefore I had to change the following string-entry in ../lang/en.yml from:

```
general_first_day_of_week: '7'
```

to:

```
general_first_day_of_week: '1'
```

I don't know if it works on the current trunk due to the recent switch to native Rails i18n. You could try changing source:/trunk/config/locales/en.yml#L107 from:

```
 general_first_day_of_week: '7'
```

to:

```
 general_first_day_of_week: '1'
```

Note the preceding two spaces, they are required...

+1 from me...

*- Affected version (unused) deleted (0.8.1)*

*- Affected version deleted (0.8.1)*

Target version should be set when decision is made upon integration of the feature. See submission guidelines.

I personally consider this a feature request instead of a defect...

**#3 - 2009-03-04 17:57 - Jean-Philippe Lang**

*- Tracker changed from Defect to Feature*

**#4 - 2014-07-11 11:23 - Go MAEDA**

The feature has been already implemented([#7097](#)).

This issue can be closed.
