

Redmine - Patch #29162

Only allow visible custom fields as aggregation criteria in time reports

2018-06-29 17:27 - Holger Just

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Time tracking	Estimated time:	0.00 hour
Target version:	4.0.0		
Description			
<p>In time reports, the user can currently select any custom field defined in the Redmine system as an aggregation criteria. This can lead to confusion since the returned data might not reflect the custom field or might even lead to an information leak regarding the existence of a hidden custom field. The data returned in the report itself is correctly filtered so that the field is only considered if it is actually visible to the current user.</p> <p>The attached patch filters the custom fields available as aggregation criteria in the report to only allow the use of visible custom fields.</p>

- Related to Patch #29161: Avoid SQL errors when adding a project custom field as a time report criteria added

#2 - 2018-06-29 17:32 - Holger Just

With just this patch, we can avoid the consequences of [#29161](#) (at least I have not found any other place where this is an issue). Still, we should also apply [#29161](#) to make the method save to use for ProjectCustomFields.

#3 - 2018-07-12 06:22 - Go MAEDA

- Target version set to Candidate for next minor release

#4 - 2018-07-12 07:52 - Go MAEDA

- File 29162@2x.png added

- Target version changed from Candidate for next minor release to 3.3.9

I confirmed the problem. Setting the target version to 3.3.9.

Custom fields » Projects » Development status

Format: List

Name *: Development status

Description: [Empty text area]

Multiple values:

Possible values: Stable, Beta, Alpha, Planning

Required:

Visible:

Searchable:

Used as a filter:

“Development status” is an invisible field.

Spent time

Filters: Date any

Options: [Empty]

Apply Clear Save
