Description

It would be very nice if we have a little button near PRE block, so user can copy the entire content to clipboard.
This can be very useful when there are in the block informations that user wants to use other place.

This should work on issues and wikis.

+1 for this to be core feature!

#4 - 2024-01-03 16:01 - Nicolas Houdelot

+1
that would be great if this could be included in the next major release (6.0), as a patch already exist
