

## Redmine - Defect #29235

### Issue -

2018-07-13 16:43 - Kian Shakeri

<b>Status:</b>	Closed	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.3.1
<b>Resolution:</b>	Invalid		
<b>Description</b>			
<p>Hi, I've recently installed Redmine 3.3.1 on Debian Stretch and I think I have found a bug regarding the "issues" page. As you can see from the screenshots provided, the parameters "Duration", "Story points" and "Velocity based estimate" aren't properly presented in the web page. I've take a look into the web page source code using Chromium Inspector and it looks like these parameters, and there values, are somehow injected, without any html tags, into the page by Redmine. I also looked at the file <code>./app/views/issues/show.html.erb</code> and compared it with previous Redmine versions in Github and didn't found any major difference. However, it looks like these parameters (such as "Duration") aren't even called in this file. Thanks.</p> <p>Here's some useful informations:</p> <pre>&gt;&gt; ruby bin/about Environment: Redmine version      3.3.1.stable Ruby version         2.3.3-p222 (2016-11-21) [x86_64-linux-gnu] Rails version        4.2.7.1 Environment          production Database adapter     Mysql2 SCM: Subversion           1.9.5 Git                  2.11.0 Filesystem Xitolite             2.11.0 Redmine plugins: clipboard_image_paste 1.12 redmine_announcements 1.0 redmine_backlogs     v1.0.6 redmine_better_gantt_chart 0.9.0 redmine_bootstrap_kit 0.2.5 redmine_dmsf         1.5.9 redmine_git_hosting  1.2.3 redmine_image_clipboard_paste 3.3.0 redmine_issues_summary_graph 0.0.9 redmine_landing_page 0.1.1 redmine_monitoring_controlling 0.1.1 redmine_my_page_queries 0.1.0 redmine_sidekiq      2.1.0 redmine_silencer     0.4.3 redmine_stealth      0.7.2 scrum2b              2.0  &gt;&gt; lsb_release -a No LSB modules are available. ## History

---

### #1 - 2018-07-13 16:45 - Kian Shakeri

Sorry about the title!

### #2 - 2018-07-13 22:07 - Holger Just

- Status changed from New to Closed

- Resolution set to Invalid

These fields are added by the backlogs plugin. Since Redmine can't control what the plugin is injecting there, we can't help you here unfortunately.

You might want to contact the plugin authors instead. (Or use a different plugin given that it isn't maintained since almost 5 years now.)

### #3 - 2018-07-13 22:09 - Holger Just

- Has duplicate Defect #29237: Issue - HTML/CSS Problem on Redmine 3.3.1 added
