How can I modify this to send reminders also when something has not been worked on? I do not know how often we will use due dates, when we have priorities which dictate urgency of tickets.

- immediate priority -> send reminder if no one updated issue within 12 hours of last update
- critical priority -> send reminder if no one updated issue within 24 hours of last update
- high priority -> send reminder if no one updated issue within 48 hours of last update
- normal priority -> send reminder if no one updated issue within 7 days of last update

#### #7 - 2011-09-19 09:16 - Etienne Massip

- Target version set to Candidate for next major release

#### #8 - 2012-02-14 19:28 - Felipe Bessa Coelho

Is there something I can help with to test and/or develop this issue? It would be great for tasks and event planning in our project, which is not only code related.

#### #9 - 2012-05-31 12:07 - Samantha Cox

What also would be interesting is to specify any data field to be used. So that you could use for example a custom field instead of the start-date or the due-date.

Please Add this feature. The plugins are not cutting it because they aren't maintained. I mostly need the email Watchers feature, personally.
