Target version:			
Resolution:	Duplicate		
Description			
Support for MySQL 5.5 ended in December 2018:			
Resources:			
- https://en.wikipedia.org/wiki/MySQL#Milestones			
- https://www.fromdual.com/support-for-mysql-from-oracle			
There are no changes in the code from what I've found, I think that we should just update the wiki and add this ticket to the Changelog.			
I propose to drop support in 4.1.0 .

History

#1 - 2019-08-19 02:14 - Go MAEDA

I think it is premature to drop support for MySQL 5.5.

- CentOS 7 bundles MariaDB 5.5.60. The support for CentOS ends on 2024-06-30
- The latest version of ActiveRecord 6.0.0 still supports MySQL 5.5.8:
https://github.com/rails/rails/blob/6-0-stable/activerecord/lib/active_record/connection_adapters/abstract_mysql_adapter.rb#L520

- Related to Feature #39579: Drop official support for MySQL 5.5, 5.6 and 5.7 added

#3 - 2023-11-21 00:04 - Marius BĂLTEANU

- Target version deleted (Candidate for next major release)
- Resolution set to Duplicate

#4 - 2023-11-21 00:13 - Marius BĂLTEANU

- Status changed from New to Closed
