

Redmine - Defect #30494

Can't set author_id when creating a new issue via REST API.

2019-01-25 10:46 - Sanooj M

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	REST API	Estimated time:	0.00 hour
Target version:		Affected version:	3.2.1
Resolution:	Wont fix		
Description			
My app details are given below Environment: Redmine version 3.2.1.stable Ruby version 2.3.1-p112 (2016-04-26) [x86_64-linux-gnu] Rails version 4.2.6 Environment production Database adapter Mysql2 I'm trying to add an issue via java api redmine-java-api.3.1.1 Whenever I try to set author_id it doesn't work. It creating issue with author as the application admin user. Please help me. Or let me know if its fixed in any later version.			

History

#1 - 2019-01-25 14:35 - Bernhard Rohloff

According to [#10765](#) it's basically not possible to create an issue with a different author_id.

#2 - 2019-02-02 03:47 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Wont fix

It is the expected behavior. You cannot impersonate another user in Redmine.
