Redmine - Feature #30820

Drop setting "Blind carbon copy recipients (bcc)"

2019-02-17 21:00 - Marius BĂLTEANU

Description

From [#26791](#):

BCC recipients

Since each user gets their own mail, we can probably remove the setting to send mails with BCC completely. If plugins want to send mails to non-user recipients, we would have to make sure to either set the recipients manually on BCC or group them appropriately. It is not a required setting in Redmine core anymore though.

I agree, the setting doesn't make any sense now.

- Related to Defect #30787: Other recipients are not listed in To field even if Setting.bcc_recipients is false added

#3 - 2019-02-20 01:05 - Go MAEDA

- Assignee set to Jean-Philippe Lang

- Target version changed from Candidate for next major release to 4.0.2

+1
The setting has no effect since [#26791](#) was implemented.

#4 - 2019-02-20 01:15 - Go MAEDA

Probably the patch also resolves [#8516](#) because Redmine with the patch applied does not remove To field.

#5 - 2019-02-20 01:15 - Go MAEDA

- Related to Feature #8516: Email notifications without the recipient treated as attempted fraud by mail clients added

Agree. Also, [#30787](#) can be closed now from my point of view if you don't refer to other problem.

#7 - 2019-02-20 09:54 - Marius BĂLTEANU

- File deleted (0001-Remove-setting-Blind-carbon-copy-recipients-bcc.patch)

#8 - 2019-02-20 09:56 - Marius BĂLTEANU

- File 0001-Remove-setting-Blind-carbon-copy-recipients-bcc.patch added

Updated to remove bcc_recipients from settings.yml as well.

#9 - 2019-02-20 10:27 - Go MAEDA

- Category set to Email notifications

- Target version changed from 4.0.2 to 4.1.0

Since this patch adds a migration, I am changing the target version from 4.0.2 to 4.1.0.

#10 - 2019-03-17 05:01 - Go MAEDA

- Blocks Patch #31035: Remove redefinition of ActionMailer::LogSubscriber#deliver which is no longer necessary because of the removal of Setting.bcc_recipients added

#11 - 2019-06-20 16:05 - Jean-Philippe Lang

- Target version changed from 4.1.0 to 5.0.0

Removing a setting may cause some plugins to error.
Setting it to a major release.

#12 - 2021-04-04 23:12 - Marius BĂLTEANU

If entirely removing the setting is unwanted in 4.3, maybe we can deprecate it there.

That is, we could remove any code which uses the setting but keep the setting itself available in code (possible with some deprecation warning if accessed)

The next version is 5.0.0 which will contain other removals or breaking changes. I'm in favour of removing this and in the future, indeed, we can deprecate it few versions before.

#17 - 2021-08-01 19:27 - Marius BĂLTEANU

- Status changed from New to Resolved

#18 - 2021-08-01 22:56 - Marius BĂLTEANU

Patch committed.

Plugins developers who are using bcc_recipients setting must add their own setting starting from Redmine 5.0.0.
