Description

When I follow e.g. the link RE: Redmine forums moved to redmine.org, the forum page opens without any indication where the linked reply message is.

In Redmine 4.x, the linked issue notes (#22978) and wiki sections (#28330) is emphasized.

My patch have the linked reply message visually emphasized like these:

As noticed in #28330#note-4, I believe this improvement should be applied to the version 4.x.x stream.

Indeed. I forgot to create an issue at that time. I think the fix should be delivered in 4.0.2.
