<b>Target version:</b>	
<b>Resolution:</b> Duplicate	
<b>Description</b> We need to create overall Gantt for all our projects, but we need to group it into sections by the projects, or ideally two levels: 1. projects, 2. Versions. Grouping should be configurable, so the user can group issues by what he needs. There should be also ability to "Save" Gantt settings.	
<b>Related issues:</b> Is duplicate of Redmine - Feature #347: Grouping issues in Gantt view <b>New</b>
