

Redmine - Patch #31320

Set an appropriate default type in New custom field page depending on the current tab

2019-05-08 09:10 - Mizuki ISHIKAWA

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Custom fields	Estimated time:	0.00 hour
Target version:	4.1.0		
Description			
If "New custom field" link is pressed while selecting the Activities tab in custom_fields/index, the default value of radio_button on the next screen is "Issue".			
I think that it is convenient if the default value of radio_button of the next screen is Activities.			
custom_fields.png			
The attached patch changes the default value of radio_button according to the tab opened in the previous screen.
