

Redmine - Patch #31391

Small refactorization of avatar methods

2019-05-18 13:34 - Marius BĂLTEANU

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Go MAEDA	% Done:	0%
Category:	Code cleanup/refactoring	Estimated time:	0.00 hour
Target version:	4.1.0		
Description			
Small refactorization of avatar methods:			
<ul style="list-style-type: none">• move existing methods from ApplicationHelper to a new helper file (AvatarsHelper)• change default avatar size from 50 to 24 because most of the avatars are using the size 24• class 'gravatar' is always added and all custom classes are appended• added user name as default title for avatar images• added two new methods: assignee_avatar and author_avatar			
This patch will change 2 existing behaviours:			
<ul style="list-style-type: none">• in issue#show page, the titles for assignee and author will have the format: Assignee: <user name> and Author: <user name>• the default title of all avatar is now <user name>			
The implementation could be improved more, but it is enough for now.			
Any feedback is welcome!

Revision 18175 - 2019-05-20 00:27 - Go MAEDA

Small refactorization of avatar methods (#31391).

- move existing methods from ApplicationHelper to a new helper file (AvatarsHelper)
- change default avatar size from 50 to 24 because most of the avatars are using the size 24
- class 'gravatar' is always added and all custom classes are appended
- added user name as default title for avatar images
- added two new methods: assignee_avatar and author_avatar

Patch by Marius BALTEANU.

Revision 18176 - 2019-05-20 10:25 - Go MAEDA

Reverts undesired changes in r18175 (#31391).

Revision 18188 - 2019-05-22 10:13 - Go MAEDA

assignee_avatar method causes NoMethodError if the given object is a group (#31391).

Patch by Go MAEDA.

- Target version set to 4.1.0

LGTM. Setting the target version to 4.1.0.

#2 - 2019-05-19 15:10 - Go MAEDA

- Blocks Patch #5899: Display user's gravatar when editing profile added

#3 - 2019-05-20 00:27 - Go MAEDA

- Status changed from New to Closed

- Assignee set to Go MAEDA

Committed the patch. Thanks.

#4 - 2019-05-22 02:57 - Go MAEDA

- Status changed from Closed to Reopened

IssuesController#show raises "undefined method `html_safe' for nil:NilClass" error if the issue is assigned to a group. We can fix the error by applying the following fix.

```

Thanks! Anyway, I'll take again a look over the changes proposed by just to be sure that I didn't break anything else.
