<b>Description</b> Once you post in a single thread, you're effectively "watching" it. Even if you no longer care about what's happening in the thread, you can't "unwatch" it.  It'd be nice to have "watch"/"unwatch" option like in issues on individual forum threads.	
<b>Related issues:</b> Is duplicate of Redmine - Feature #1912: Forum topics need "unwatch" ability <b>Closed</b> <b>2008-09-16</b>
