| <b>Description</b>  |                                  |
| Autocomplete exists in member selection at the moment. It would be nice to expand that functionality to issue relation selection as well. |                                  |
| The attached patch doesn't work, but provides an initial starting point to work from.   |                                  |

#### Associated revisions

##### Revision 4502 - 2010-12-12 17:04 - Jean-Philippe Lang

Autocomplete issue relations on subject (#3170).

#### History

##### #1 - 2010-03-09 10:50 - Paulo Santos

+1

##### #2 - 2010-05-14 13:06 - Felix Schäfer

- File *AutocompleteForRelatedIssues.patch* added
- Tracker changed from Feature to Patch
- Category changed from Issues to UI
- Assignee set to Eric Davis
- Target version set to 1.0.0 (RC)

Patch against r3709 to enable the autocomplete feature from the new subtasks view on the related issue field. The patch also makes sure to only return the issues from the project if no cross-project relations are allowed or all issues if it is.

@Eric: I included tests, though it is more of a guess-work from the surrounding tests than real knowledge, and I haven't run them...

##### #3 - 2010-05-17 11:28 - Daniel Netzer

+1 This would save lots of time spent in "tabbed browsing" for related issues and help users make use the related issues feature. At the moment finding related issues is not very comfortable.

**#4 - 2010-06-30 03:06 - Eric Davis**

- *Target version changed from 1.0.0 (RC) to 1.1.0*

Pushing to 1.1. I think #4382 needs to be done first before too much code is added to the existing autocompletes.

**#5 - 2010-10-25 17:01 - Eric Davis**

- *Assignee deleted (Eric Davis)*

**#6 - 2010-12-12 16:56 - Jean-Philippe Lang**

- *Tracker changed from Patch to Feature*

- *Status changed from New to Closed*

Patch updated to work with AutoCompletesController and committed in r4502.
