Description

Hi folks,

I'm running Redmine 4.0.4 with Ruby 2.5.1p57 on Ubuntu 18.04. I tried to download plugin called redmine resource booking system. I went through installation process from https://www.redmine.org/plugins/redmine_resource_booking_system.

% Done:

0%

This plugin is visible in project when i enabled it however i got Internal Error 500. When i opened log file i found this error:

*Completed 500 Internal Server Error in 18ms (ActiveRecord: 4.0ms)

NoMethodError (undefined method `possible_vaules' for nil:NilClass):

plugins/redmine_resource_booking_system/app/controllers/rrbs_bookings_controller.rb:18:in `index' lib/redmine/sudo_mode.rb:63:in `sudo_mode'*

Anyone have any idea how to fix this?

Thanks in advance
