<b>Description</b> I would like to see 2 features added: <ul style="list-style-type: none"><li>• In svn repository it should be possible to have a permalink that always points to latest version of a document.</li><li>• It would be nice to be able to link documents from repository and into the Documents part of redmine. This would make it easier maintaining the documents in a project.</li></ul> /MartOn

My mistake, I now see that the link always points to latest version. But I would like to be able to link documents from SVN to the Document folder.

Pretag this as a valid request, however this will have to come after the upcoming files/documents redesign. For clarification:

"meineerde: I think he want to have things like design docs in a svn repo and have some of it prominently linked in the docs section"

So, is it possible to use link [source:some/file](#) in Documents section ?

##### #4 - 2011-04-07 14:00 - Toshi MARUYAMA

- Category set to Text formatting

##### #5 - 2011-04-07 14:49 - Etienne Massip

- Category changed from Text formatting to Documents
