Target version:				
Resolution:	Invalid		**Affected version:**	

Description

"[abc]defg" in the starting of the line, it is not displayed correctly.
I am using such a lot of descriptions in the repository log.
It seems to occur at a point using "textilizable".

For exampe;
[test] test(OK)
[test]test(NG)

```
I wrote the following in the upper.
[test] test(OK)
[test]test(NG)
```

About application's environment
Redmine 0.8.3
Ruby version   1.8.5 (i386-linux)
