Target version:				

Description
The feature to paste images from clipboard ([#3816](#)) that will be delivered in 4.1.0 does not support Internet Explorer and Edge ([#3816#note-137](#)). I think it is better to describe the fact in the wiki help to prevent users of those browsers from being confused or thinking that it is a bug of Redmine.   The attached patch adds a note saying "Internet Explorer and Edge are not supported".
