<b>Category:</b> Text formatting	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	

**Description**  
Add the ability to link to a custom query from the wiki (and other wiki like fields)

**Syntax**  
query:[query id]

**Behaviour**

- Displays a link to a custom query
- Text of the link should be the query title

**To be confirmed**

- I'm not sure what the appropriate behaviour is if query is not public

### History

#### #1 - 2009-06-09 12:24 - Jone Marius Vignes

Please take a look at <http://www.redmine.org/boards/2/topics/2742> also, which suggests parametrized custom queries. Maybe the syntax could be something like

```
query:[query id]:[parameter]
```

see also <http://www.r-labs.org/issues/828>

#### #5 - 2018-10-05 14:10 - Jürgen Depicker

Strange that this wasn't handled :-). I would like the feature too!
