Redmine - Patch #3387

Add plugins to script/about

2009-05-19 00:14 - Eric Davis

Status:	Closed		**Start date:**	2009-05-18
Priority:	Normal		**Due date:**	
Assignee:	Eric Davis		**% Done:**	0%
Category:	Plugin API		**Estimated time:**	0.00 hour
Target version:	0.8.5			

Description

script/about is the fastest way to get information about a specific Redmine environment. This patch adds some information to script/about to print out a list of all the installed plugins and their versions.

Example output:

```
About your application's environment
Ruby version              1.8.6 (i486-linux)
RubyGems version          1.3.1
Rails version             2.2.2
Active Record version     2.2.2
Action Pack version       2.2.2
Active Resource version   2.2.2
Action Mailer version     2.2.2
Active Support version    2.2.2
Application root          /home/edavis/dev/redmine/redmine-core
Environment               development
Database adapter          mysql
Database schema version   20090518163007

About your Redmine plugins
Redmine Hoptoad Server plugin        0.0.1
Redmine Exception Handler plugin     0.2.0
Little Stream Software Design plugin  0.1.0
Redmine Graphs plugin                0.1.0
Redmine Schedules plugin             0.4.1
Redmine My Widgets plugin            0.1.0
Rate Plugin                          0.1.0
Download Counter                     0.1.0
```

Would anyone else find this useful?

Associated revisions

Revision 2766 - 2009-05-25 21:10 - Jean-Philippe Lang

Add plugins information to script/about (#3387).

Revision 2783 - 2009-06-07 20:22 - Eric Davis

Converted script/about to use Unix line ending. It has DOS line endings and would fail.

+10! :)

#2 - 2009-05-19 08:44 - Gregor Bader

+1

But it would be nice if this information is displayed on the /admin/info page.

+1 to both.

It's in /admin/plugins so I don't think it needs to be duplicated.

#6 - 2009-05-25 21:00 - Jean-Philippe Lang

- Status changed from New to Resolved

- Target version set to 0.8.5

Committed in [r2766](#).

#7 - 2009-05-31 16:52 - Mischa The Evil

After [r2766](#) it seems impossible to run the script like this:

```
$ ./script/about
```

It results in the following output:

```
: No such file or directory
```

Running the script like following does work:

```
$ ruby script/about
```

Regards,

Mischa.

#8 - 2009-06-03 23:40 - Ammler _

It seems not possible to run the script without development environment:

```
redmine@mozart:~/trunk> svnversion
2778
redmine@mozart:~/trunk> ruby script/about -e production
About your application's environment
Ruby version              1.8.6 (i586-linux)
RubyGems version          1.3.1
Rails version             2.2.2
Active Record version     2.2.2
Action Pack version       2.2.2
Active Resource version   2.2.2
Action Mailer version     2.2.2
Active Support version    2.2.2
Application root          /home/redmine/trunk
```

```
Environment              development
Database adapter         mysql
Database schema version  20090503121510

About your Redmine plugins
Embedded                 0.0.1
Google Analytics plugin  0.2.0
Redmine Collapse plugin  0.2.1
Redmine link             0.1.0
Redmine Graphs plugin    0.1.0
```

#9 - 2009-06-03 23:42 - Ammler _

(output is after I defined a database for development too)

#10 - 2009-06-07 20:24 - Eric Davis

It looks like the issue was caused by DOS line endings, converting them to unix line endings fixed script/about for me. Mischa, can you retest using the fixed in r2783.

Just checked it with Redmine trunk r2783 and can confirm that the issue is solved by the fix.

Thanks.

#12 - 2009-09-13 13:55 - Jean-Philippe Lang

- Status changed from Resolved to Closed

Merged in 0.8-stable in r2884.
