<b>Target version:</b>	2.2.0		
<b>Resolution:</b>	Fixed		

**Description**

It would be great if redmine have possible for displaying the description information of the issue in the issues list like trac.

The screenshot shows a Redmine interface with a table of tickets. The table has columns: Ticket, Summary, Priority, Status, Owner, Type, and Milestone. The first ticket is #886, 'Add support for Master tickets', with priority 'highest', status 'reopened', owner 'nkantrowitz', type 'enhancement', and milestone '0.13'. Below the table, there is a 'description' field for the first ticket, which is highlighted in green. The description text is: 'It would be cool if you could create master tickets that other tickets refer to. Work could then be broken down into chunks (and assigned to different people), but the master ticket could only be closed when all referring tickets had been resolved. You could also have it so that referring tickets are excluded from the Roadmap ticket counts.'

Ticket	Summary	Priority	Status	Owner	Type	Milestone
#886	Add support for Master tickets	highest	reopened	nkantrowitz	enhancement	0.13
Reported by dmunphy25@..., 5 years ago.

It would be cool if you could create master tickets that other tickets refer to. Work could then be broken down into chunks (and assigned to different people), but the master ticket could only be closed when all referring tickets had been resolved. You could also have it so that referring tickets are excluded from the Roadmap ticket counts.						
#4431	wiki_to_wikidom	highest	assigned	cboos	enhancement	0.13
Reported by ittayd@..., 2 years ago.						
description						
It would be good for plugins if parsing of wiki text will be broken to two stages. first take the text and convert to some data object tree (ala DOM, but with wiki orientation, so nodes are 'text', 'macro', 'link' etc.), then different formatters can go over the tree and format it, and plugins can search it.						
#5382	base64 encoding/decoding breaks compatibility with python2.3	highest	reopened	cboos	enhancement	not applicable

#### Associated revisions

##### Revision 10948 - 2012-12-06 18:48 - Jean-Philippe Lang

Adds an option for displaying the issue description on the issue list (#3447).

##### Revision 10952 - 2012-12-08 09:41 - Jean-Philippe Lang

Merged r10948 into 2.2-stable (#3447).

#### History

##### #1 - 2009-07-21 19:15 - VM Weseloh

+1 for requesting this feature; description should be a field you can query on and include in the issues list.

##### #2 - 2010-11-22 10:43 - Robert Schneider

+1

It's quite annoying if I have a meeting and want to discuss some certain issues. I have to print out each separately, by default with the whole comment history. Occasionally, I just would like to have an overview about some issues that I can print out with some clicks.

##### #3 - 2010-11-22 10:51 - Sebastian Seifert

+1

We would like to estimate/choose Redmine issues for our sprint planning in a group of people. A preview of the description would be great for that.

##### #4 - 2010-11-22 14:04 - Mischa The Evil

Such functionality is already provided by the [Show Issue Descriptions plugin](#).

**#5 - 2011-04-04 15:55 - Robert Schneider**

[Mischa The Evil](#): Why don't you add this to Redmine? I think it should be a core feature. I'm always a bit afraid about plugins, since nobody knows if they will be maintained and updated when a new Redmine version is released.

**#6 - 2011-04-18 09:15 - Deon Joubert**

Robert Schneider wrote:

I installed the plugin and it seems as if it does not work with [1.1.1](#) which just underlines Robert's comment.

## On a bit of a different note:

What about just giving a **popup**<sup>1</sup> of the description when mousing over an issue listed in an issue query. It would not be worth much for printing purposes, but would be great when just browsing through issues.

<sup>1</sup> In the same way as mousing over an update's time-stamp eg. "Updated by Robert Schneider **14 days** ago" link that gives an exact date-time down to the second when keeping the mouse cursor stationary over the link "14 days" link.

**#7 - 2012-12-06 18:48 - Jean-Philippe Lang**

- Assignee set to Jean-Philippe Lang
- Target version set to 2.2.0
- Resolution set to Fixed

Feature added in [r10948](#).

**#8 - 2012-12-08 09:42 - Jean-Philippe Lang**

- Subject changed from Description info in issues list to Option to display the issue descriptions on the issues list
- Status changed from New to Closed

Merged into 2.2-stable.
