Redmine - Defect #3512
can't use 'Target Version' field in custom query when 'For All Projects' checked

2009-06-18 22:08 - Brad Mace

Target version:			
Resolution:	Duplicate	**Affected version:**	

Description

You can create a custom query using the 'Target Version' field, and it works. You can then edit it and check 'For All Projects', and it still works. But if you edit again, the 'Target Version' filter has disappeared, and there is no option to re-add it in the Add filter box. (r2778)

History

#1 - 2009-06-18 22:16 - Brad Mace

Realized I should point out that I'm trying to use the 'All' or 'None' options. Obviously the actual version values are project-specific.

#2 - 2010-11-12 17:18 - PC Guy

It would be nice to at least see all issues that have Target none.

Are there any fixes in progress?

#3 - 2011-01-14 02:02 - Colan Schwartz

+1 for getting this into a bug-fix release.

#4 - 2011-07-20 17:00 - Stephen Grant

+1 for getting this fixed. Anyone?

#5 - 2011-10-27 15:16 - Brandon Liles

+1 for a fix for this as well. This is especially helpful for us since since we follow a scrum sprint method so all projects share the same version.

#6 - 2011-10-28 11:08 - Etienne Massip

- *Status changed from New to Closed*

- *Resolution set to Duplicate*

Closed as duplicate (would be fixed with) #4559.
