+1. This would be very helpful.

Are macros part of the textile wiki engine, or are they added by the Redmine source?

- Category set to Text formatting

#3 - 2013-06-24 15:53 - Kevin Bijsterbosch

Is this feature already added?
This would be very helpful when using larger pages and get a block of information instead of the entire page.

+1, I thought it would be very useful.
So, I made a patch, with reference to redmine_include_macro_extension plugin maded by @Taiki I.
We will be able to include a section of wiki page, by writing the macro as below.

{{include (Page, Section)}}
