Description

When trying to Import issues, even when using the issues.csv file found in the "How To Import Issues" wiki [HowTo_import_issues](#), it fails with 0/1 (in this case).

I have tried with a number of different CSV files, and always get the same results.

This is done from the "Import" menu item on the actions "... " on the "Items" tab.

This is the log when using issues.csv from the wiki (also attached) :

History

#1 - 2021-07-12 07:31 - Go MAEDA

It looks like the error occurred inside redmine_wktime plugin. Could you try again without plugins?

#2 - 2021-07-12 07:46 - Simon Parker

- Status changed from *New* to *Resolved*

You are completely correct, disabling the redmine_wktime plugin lets the import go through. I'll close this one, and log an issue with the redmine_wktime plugin author.

#3 - 2021-07-12 07:48 - Go MAEDA

- Status changed from *Resolved* to *Closed*

- Resolution set to *Invalid*

Thank you for your feedback. Closing.
