Description

Please someone help me to install and use new plugins. I use Redmine 0.8.4.
I installed some plugins but I can not use them, Redmine always tells me the error message (see files).

This is not the place to ask for support (for 3pd-extensions). Support can be requested better on the forum.

Some forum-post tips:

- it would be handy to know which plugins you are trying to install :)
- take a look at Submissions to see which futher info can be needed

Regards,

Mischa.
