

## Redmine - Defect #3753

### Plugin asset URLs not correctly generated for sub-URI deployments

2009-08-18 15:18 - John Koleszar

<b>Status:</b>	Closed	<b>Start date:</b>	2009-08-18
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Eric Davis	<b>% Done:</b>	0%
<b>Category:</b>	Plugin API	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>	Duplicate		
<b>Description</b>			
<p>When Redmine is installed in a sub-uri (eg <a href="http://www.example.org/redmine">www.example.org/redmine</a>), the URLs generated for plugin assets do not prepend the relative_url_root. Strictly speaking, this is a bug in the Engines plugin, not Redmine, but there has been no response to my report on the Engines developers' list<sup>1</sup>.</p> <p>[1] <a href="http://lists.rails-engines.org/pipermail/engine-developers-rails-engines.org/2009-August/000344.html">http://lists.rails-engines.org/pipermail/engine-developers-rails-engines.org/2009-August/000344.html</a></p>

#### History

##### #1 - 2009-09-01 05:25 - Eric Davis

When Redmine is upgraded for Rails 2.3.3 ([#3597](#)), we'll probably need to upgrade Engines also. If the bug still exists, I can try to fix it for Redmine and send it to the Engines team.

##### #2 - 2010-09-17 06:23 - Eric Davis

- Status changed from New to Closed

- Resolution set to Duplicate

Was fixed in [#3935](#), marking this as a duplicate.
