

Redmine - Defect #3755

Viewing an issue dies if the description contains two adjacent equals signs

2009-08-19 02:36 - Anonymous

Status:	Closed	Start date:	2009-08-19
Priority:	High	Due date:

Target version:		Affected version:	
Resolution:	Cant reproduce		

Description

I don't want to actually put the bad text into this issue in case it breaks it, but it is two adjacent equals signs, as in = followed immediately by another = with no whitespace. This happens every now and then on our Java project that uses Freemarker, which 'helpfully' outputs nice error messages that contains this sequence of characters. The only way we can fix this is to change the issue description in the database to remove them.

Looking at the stack trace below, it can be seen that it's not necessarily restricted to issue descriptions, but to anything that is passed into 'textilizable'. This is a problem in the current SVN trunk, and probably all existing releases too.

History

#1 - 2009-08-19 02:40 - Anonymous

I've made a sample of the text causing the problem at <http://www.pastebin.ca/1534517>

#2 - 2009-09-01 05:31 - Eric Davis

Works fine on the demo ([r2784](#)) and on the preview here. Is there any more information you can provide?

<http://demo.redmine.org/issues/4587>

#3 - 2009-11-05 13:23 - Jean-Philippe Lang

- *Status changed from New to Closed*
- *Resolution set to Cant reproduce*

#4 - 2009-11-05 23:35 - Anonymous

Sorry for not responding 2 months ago Eric. I can confirm that this appears to be fixed in the current SVN trunk. Cheers!
