

Redmine - Defect #3778

Non-administrator users cannot set parent project for new projects

2009-08-25 12:51 - Gábor Molnár

Status:	Closed	Start date:	2009-08-25
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Duplicate		
Description It is not possible for non-administrator users to set the parent of the project to be created. There is no parent project field on the new project page, even if i am the owner of the project that i want to set as parent. There is no such option even in the settings page of an existing project. I am using the svn trunk version.			
Related issues: Is duplicate of Redmine - Feature #2963: Managers able to create subprojects Closed 2009-03-13			

History

#1 - 2009-08-31 18:00 - Anonymous

- File 003-redmine-admin-project.diff added
- Status changed from New to Resolved

In the file app/views/projects/_form.rhtml, change the line :

```
<% if User.current.admin? && !@project.possible_parents.empty? %>
```

With :

```
<% if !@project.possible_parents.empty? %>
```

This is what i have done and it works.

#2 - 2009-08-31 18:01 - Anonymous

Arghhhhh !!!!

In the file app/views/projects/_form.rhtml, change the line :

```
<% if User.current.admin? && !@project.possible_parents.empty? %>
```

With :

```
<% if !@project.possible_parents.empty? %>
```

This is what i have done and it works.

#3 - 2009-09-01 05:47 - Eric Davis

- Status changed from Resolved to Closed
- Resolution set to Duplicate

This is a duplicate of [#2963](#)
