

Redmine - Patch #3836

Git repository support fails on Windows

2009-09-08 21:15 - Michael Vance

Status: Closed	Start date: 2009-09-08
Priority: Normal	Due date:
Assignee:	% Done: 100%
Category: SCM	Estimated time: 0.00 hour
Target version:	
Description Git adapter uses a git command piped to wc to count lines, no wc in Windows, etc.

Jean-Philippe, can you take a look at this patch? I don't have access to a Windows system with Redmine.

#2 - 2009-09-10 18:57 - Babar O'Cap

Michael Vance> See my workaround, *Bare repository on Windows* on wiki page [RedmineRepositories](#)

#3 - 2009-09-11 08:59 - Adam Soltys

Thanks for catching and patching this Michael. I can't believe I let this slip. I was a big Windows user until just this year and I always hated how it was treated as a second-class citizen by the Ruby community. Now here I've gone and done that myself. I'll make sure I remember to test any future patches in Windows before releasing them.

#4 - 2009-12-21 00:55 - Jack Christensen

- *File git_windows.diff added*

The above patch causes num_revisions to always return 2.

I've added a patch that should return the correct number of revisions.

#5 - 2010-03-03 19:53 - Toshi MARUYAMA

- *Status changed from New to Resolved*

- *% Done changed from 0 to 100*

This code is removed from trunk by [r3394](#) and 0.9 stable by [r3501](#).

#6 - 2010-03-03 23:01 - Jean-Philippe Lang

- *Status changed from Resolved to Closed*

Indeed. This is fixed in 0.9.3.
